no matter how improbable, must be the Truth. (Sherlock Holmes)

Neil #1, ruminating in the Ivory Tower at 36½ Union St, seized this year-end opportunity to reach beyond our confines into the political morass... In this way we hope to show the relationship between Assassinology's research into past acts of violence and the present state of affairs those assassinations were designed to control...
For instance: the assassinologists' point of view should have made the public supremely aware of the significance of the Coup d'Etat in Dallas two decades ago... Having failed to do so, we can see Conspiracy's Coverup enjoying a comfortable 4-length lead and rowing lower... Fortunately its stroke-oar, Violence, who glorifies the Finger over Civility and uses the Bullet in place of Compassion, is overdoing his macho-ness... He will catch a crab in the rough water ahead...
Martin Luther King's credo is showing up all over the Neighborhood we all call Earth... NON-VIOLENCE is our hope for you for the New Year 1984... and forever more....

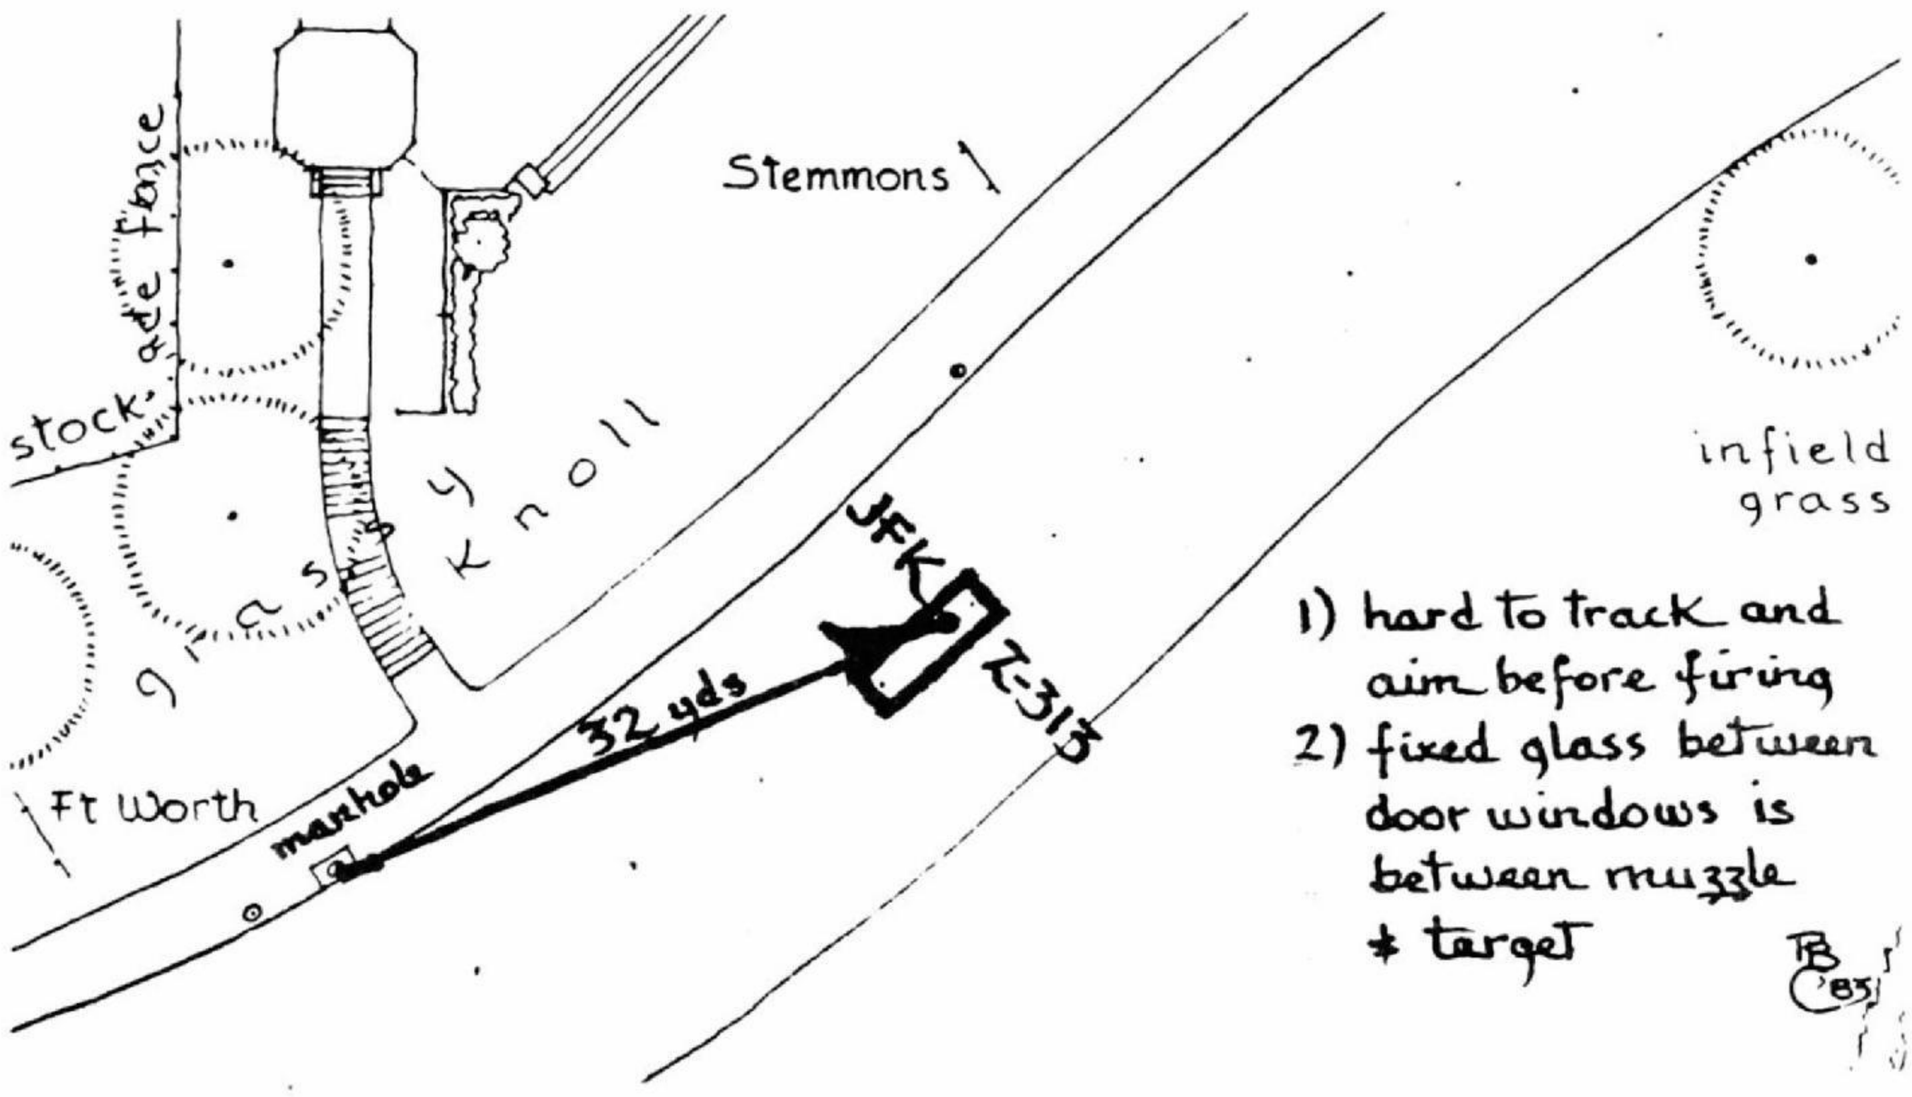
PENN's No.9

As we watched the CBS Evening News, November 7th, suddenly there Penn Jones himself, telling it like it was twenty years ago in Dealey Plaza ... we had to smile at the way CBS finally had one of its severest critics, a persistent Warren Report wrecker, right where it wanted him: in the sewer ...

He only was on long enough to tell about one of the nine shots he believes were fired that afternoon in an ambush fusillade cousin to our Crossfire 83, which allows 7 shots and a rocket launch ... with only 11% of his story on view, still it stood up better than CBS's Rather-blather about Reality and Myth, which fell flat on its mugwump...

Because it was Penn who started us off on this elegant goose-chase, we cannot avoid showing why we think a shot from the storm-sewer manhole is not feasible ... no innuendo here; this is not the first nor the last time a student has crossed epees with his teacher ...



When CBS, who knows who was responsible for assassinating the President of the United States, doesn't dare air the facts of that violence, twenty years after the fact, it should be obvious that Conspiracy fooled the Media in Dallas with its Lone Assassin Yarn ...

With no real way out of that box Media was then forced into playing a major role in the continuing farce called Coverup ... more and more it's Radio, and now Cable TV, where the Truth will out ...

20-20 HINDSIGHT

KENNEDY KILLED BY SNIPER .. Leftist Accused .. Figure in Pro-Castro GroupIs Charged .. Policeman Slain .. Lee Harvey Oswald, a 24-year-old warehouse worker, who once lived in the Soviet Union, was charged last night with assassinating President Kennedy ..... the police said at least six witnesses placed Oswald in the building (TSBD) at the time of the assassination ..... the defendant's only comment, shouted at reporters as he was being led handcuffed through a police building corridor to be questioned was , "I haven't shot anybody ....." (Gladwyn Hill, Front Page, NYTimes, XI/23/63)

Oswald's truthfulness is corroborated :
.... Gary Mack tells me about a witness, never questioned by the Warren Commission ....Carolyn Arnold .... knew Oswald well by sight. She says she came upon Oswald sitting alone, eating a sandwich in the employees' lunchroom at 12:15 just ten minutes before the motorcade was scheduled to pass the building....
(Ron Rosenbaum, Texas Monthly, Nov. '83, p 263)

[Hell, any red-blooded assassin could finish a sandwich, run up to the 6th floor, assemble and load his rifle, stack the box-carton barricades around his "nest", track, aim and fire 1 miss and 2 bulls-eyes, hide the gun and scoot back down for a Coke in the lunchroom, 2nd floor, by 12:32 ... Isn't that where a Dallas Policeman found him? Sure was ...]

... as the 20th anniversary of President Kennedy's assassination draws near, a major figure will come forward and admit JFK's slaying was the result of a Conspiracy ...
(Psychic Lou Wright, National Enquirer, VI/14/83)

[to make that Come-Forward into a Media Event, we suggest that the three living Warren Commissioners, Cooper, McCloy and Ford, lead a mini-parade to confession at the White House on the 20th anniversary of the publication of their Report next September ...]

.... When President Kennedy was murdered, Moscow signalled its intentions by grounding its Air Force, which was immediately noted by the Pentagon and correctly understood to mean the Kremlin would not take advantage of America's shock ....

(Flora Lewis, NYTimes, XI/21/83)

[Conspiracy's Grand Design of pinning the rap on the USSR's KGB was thwarted at the very outset ... the American public never was made aware of this act of human kindness ... Coverup immediately shifted to its Communist fall-back position: Castro-Did-It ...]

GKG-4. XII/83

20-20 Hindsight, concluded

.... in many ways the act of murder that deprived me of my husband was an official act. It was almost as though the assassin had been appointed by the state to carry out the execution of an enemy of the state ....
(Myrlie Evans, The Nation, IV/2/83)

["the state" is your state, fast becoming your enemy...]

FILIBUSTER BY HELMS ON DR KING HOLIDAY IS DROPPED IN SENATE
"... it's not necessarily malicious ..." referring to Mr Helm's motives. "He just doesn't understand Martin Luther King jr."
(Martin Luther King 3rd, NYTimes, X/5/83)

[the State gets good marks for effort]

.... In the final analysis the Warren Commssion turned out to be right: Oswald was the assassin ....
(E J Epstein, Wall St Journal, XI/22/83)

[this State writer's concept of "final analysis" is right in tune with the times]

.... Winston and Julia are employed in the Ministry of Truth, whose function is to falsify the past in accordance with the needs of present policy ....
(R C Tucker, 1984 Revisited, p 94)

.... Mr DeMorenschildt explained to me that he had been asked to keep tabs on Oswald by the CIA officer (?) in Dallas (?) responsible for de-briefing businessmen on their trips to communist countries...
(E J Epstein, again)

[so the CIA officer in Dallas asks a CIA agent in Dallas to keep tabs on a CIA operator just returned to Dallas from a buisness trip to a communist country ... affairs of State are best handled by State employees]

.... the most notorious blunder of all, according to the experts, occurred during John F Kennedy's autopsy when a pathologist mistook an exit wound for an entrance wound .... (Newsweek article)
.... That initial error will live with us forever ....
(Dr Michael Baden, same article, VII/25/83)

[The State Witness goofed over Exit and Entrance...
- No one at autopsy mistook an exit wound for one of entrance.
- A pathologist was ordered to report out the President's Throat Wound of Entrance as one of Exit .. which he did.
- Assistant Counsel Arlen Specter then made certain that "Exit Wound" was written into the Warren Report where it became the foundation of the Single-Bullet Theory and the keystone of the Lone Assassin Myth]

GKG·5·XII/83

TWENTY YEARS AFTER by Dr Christopher B. Sharrett

During the last anniversary of the death of John Kennedy, precious little was said of that tragedy precisely as a political assassination. The networks and press were rife with expected sentiment and commemorative gestures. There was the usual rehash of "the controversy still surrounding the case" and the pyscho-sexual defects of those who continue to cater to "conspiracy theories". Followed by media attempts to gain credibility by acknowledging certain official investigations, responsible discussion of the murder and its relation to current political events was hard indeed to find.

The case must be restated as a political murder. JFK's assassination was an important first step in a prolonged assault on progressive movements and social democratic institutions. Events which followed it bear this out all too clearly:

1. The assassination of Malcolm X
2. The assassination of Martin Luther King jr
3. The assassination of Robert Kennedy
4. The attacks on the Black Panthers and other radical groups
5. Operations COINTELPRO, CHAOS and MK-ULTRA
6. The "undeclared" war in Viet Nam
7. The scandalization of Edward Kennedy at Chappaquiddick
8. The attempted assassination of George Wallace
9. The Overthrow of Chile's socialist government through the assassination of its democratically elected President Allende
10. The political assassination of President Nixon at Watergate
11. CIA and FBI "revelations"
12. The Eastern Establishment-Yankees / Southern Rim-Cowboys War
13. Violence against progressive factions overseas: murders of South Korea's Park, Egypt's Sadat, the Grey Wolves' attempted assassination of the Pope and the murder of former Phillippine Senator Aquino
14. The current administration's war against socialist movements in Central America ... in particular, Nicaragua
15. The current administration's destruction of government-funded domestic social programs

Walter Cronkite might call this a "time of unrest". We label it a last-ditch effort by capitalism to recoup itself. The domestic assassinations and Watergate are especially pertinent in demonstrating the internicine warfare, gangsterism, betrayal and self-destruction typical of a morally bankrupt system.

Except for a brief period in the '70s, the Left in the US, has not sought to galvanize the people to a mass action showing how the murder of one of its most beloved and charismatic leaders is related to this period of reaction, this roll-back of social progress. We researchers have been left to ramble on about bullet trajectories, the number of shots fired and noises on tape recordings plus other elements that make up the skins of the onion forever being peeled back.

(continued)

TWENTY YEARS AFTER (concluded)

Our work is divided, our labor alienated. In terms of political productivity the onion will reveal nothing but a void.

Assassinology has yet to emerge as a vital, dynamic, political concern, a force for progress as specific in its focus as the minorities' struggle for civil rights.

Let me suggest the following strategies, all related specifically to the JFK assassination :

1. In this period of renewed media-nurtured interest Assassinologists should emphasize its Conspiracy and political relevance.
2. The already-mountainous evidence of Conspiracy should be used for teaching purposes whenever and wherever possible, no matter how small the audience.
3. Presentation of this evidence and its relationship to the JFK, MLK and RFK, as well as the MJK assassinations should be structured into exposing the injustice of the current politico-economic system.
4. These injustices may also be used to accentuate the political awareness of the voting public in the year ahead.
5. Progressive candidates, who are politically in tune with or at least understand these injustices, these murders and their consequences, should be given full support.

Many researchers complain that interest in the assassinations is dead. A few counsel against involvement in the controversies around the murders claiming that the current reactionary phase has all but killed the issue. They fail to understand that the full force of the Reagan administration, with its own built-in contradictions, is being felt by an overwhelming majority of the American people. As military involvement continues overseas many feel their own pain but few are capable of perceiving the ailment, the disease. "Fighting for Democracy" sounds patriotic. It is the life of of the private economic sector that is actually at stake.

A year of so ago this writer gave an eight-hour presentation to an SRO audience at Vally Forge Military Junior College. The JFK assassination and its relationship to the current trend stirred many not only into believing in Conspiracy but also sent them off to becoming politically radicalized. The assassination is a festering cyst which speaks to those who will listen about the contradictions and injustices of a system of power which has been corrupted and controlled for the benefit of those of a military persuasion to the answers of the the ills of the world, including their own economic shortcomings. A system working for the benefit of the few at the expense of the many, the rest of us.

Over the years this writer's awareness of the political aspects of the President's murder has jelled into an oversimplification (perhaps) but nonetheless all-inclusive:

With Kennedy's death Progressive people everywhere began to lose. [began to lose hope, also]
